INDEPENDENT AUDITOR'S REPORT

Board of Directors
Grand Fire Protection District No. 1
Grand County, Colorado

We have audited the accompanying financial statements of the governmental activities and each major fund of the Grand Fire Protection District No. 1 (the District) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Grand Fire Protection District No. 1, as of December 31, 2015, and the respective changes in financial position, and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

I

Wagner Barnes & Griggs, PC

Adoption of New Accounting Standard

As discussed in Note 14 to the financial statements, in 2015 the District adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pensions. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages III through VIII and pension liability information on page 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information on page 26 is presented for purposes of additional analysis and legal compliance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Lakewood, Colorado
July 26, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Grand Fire Protection District No.1's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should review the information presented here in conjunction with the basic financial statements and the notes to financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- Assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$5,519,186 (net position). Of this amount, \$2,452,532 (unrestricted net position) may be used to meet the District's ongoing obligations to its citizens and creditors.
- The District's total net position decreased by \$926,521 over the prior fiscal year. The majority of this decrease is related to the implementation of GASB 68 and the pension related amounts required to be reported.
- Total governmental funds revenue increased \$62,252 from the prior year, primarily due to an increase in property tax revenue.
- General fund expenditures increased by \$21,015 from the prior year, primarily due to the replacement and purchases of capital expenditures including a 50% deposit on a new apparatus.
- The general fund ending fund balance was \$3,206,370, a decrease of \$188,364 from the prior year.

Effective January 1, 2015, the District and all other state and local governments throughout the nation that provide their employees with pension benefits, are required to apply GASB Statement No. 68 to their financial statements. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions.

The District provides its employees with pension benefits through a multiple employer cost-sharing defined benefit pension plan administered by the Colorado Fire and Police Pension Association. It is important to note that the District does not have a responsibility to pay the amount shown as the District's net pension liability. The District's direct liability is limited to the annually required contributions established by the State Legislature. In addition, the District does not have any control over the investment policies associated with FPPA investments. These responsibilities lie solely with the FPPA board and administration. Decisions regarding the plan benefit design and the funding policies lie solely with the State Legislature. Please refer to Note 8 within the Notes to Financial Statements section of this report starting on page 9

Overview of the Financial Statements

Grand Fire Protection District No.1's basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred inflows of resources, liabilities, and deferred outflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The governmental activities of the District include fire, rescue and emergency services within its boundaries. In addition, the District maintains mutual aid and automatic aid agreements with adjacent fire protection districts. Other activities include fire prevention and fire safety education, fire training, fire inspections and plan reviews.

The government-wide financial statements can be found on pages 1-2 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Grand Fire Protection District No.1, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Grand Fire Protection District No. 1 maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)**

for the general fund and the debt service fund, both of which are considered to be major funds.

The District adopts an annual appropriated budget for each of the funds described above. A budgetary comparison statement has been provided for these funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 3-8 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 9-24 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplemental information. Budget comparisons for the debt service fund can be found on page 25 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of Grand Fire Protection District No.1, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$5,519,186 at the close of the most recent fiscal year.

Net Position

	<u>Governmental Activities</u>	
	<u>2015</u>	<u>2014</u>
Current assets	\$ 4,642,842	\$ 4,913,333
Capital assets	7,452,462	7,661,785
Total assets	<u>12,095,304</u>	<u>12,575,118</u>
Deferred outflows of resources	<u>455,014</u>	<u>385,347</u>
Current liabilities	476,401	658,788
Long-term obligations	5,437,217	4,759,480
Total liabilities	<u>5,913,618</u>	<u>5,418,268</u>
Deferred inflows of resources	<u>1,117,514</u>	<u>1,096,490</u>
Net position:		
Invested in capital assets, net of related debt	2,692,982	2,458,118
Restricted	373,672	363,209
Unrestricted	<u>2,452,532</u>	<u>3,624,380</u>
Net position	<u>\$ 5,519,186</u>	<u>\$ 6,445,707</u>

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)**

The District has 48.8% of its net position invested in capital assets (e.g., property, plant, and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, this net position is *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (6.8%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$2,405,512 (44.4%) may be used to meet the District's ongoing obligations to citizens and creditors.

Activities	For the Years Ended December 31,	
	2015	2014
Revenues		
Program revenues		
Operating grants and contributions	\$ 18,731	\$ 14,552
General revenues		
Property taxes	1,090,378	1,038,200
Specific ownership taxes	68,483	56,354

Interest and other	27,831	11,465
Total revenues	1,218,380	1,156,128
Expenses		
General and administrative	358,309	343,409
Pension contribution	26,052	110,004
Operating and communications	90,084	105,225
Repairs, maintenance and other	154,626	107,116
South (Red Dirt) Station annual contribution	25,000	25,000
Grant expenditures	5,000	1,500
Depreciation and amortization	282,368	251,904
Bond interest expense and related debt service costs	188,722	200,027
Total expenses	1,130,161	1,144,185
Change in net position	88,219	11,943
Net position - beginning	6,445,707	6,433,764
Restatement (related to pension adjustments)	(1,014,740)	
Net position - ending	\$ 5,519,186	\$ 6,445,707

*2014 net position was not restated for the implementation of GASB 68

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)**

Financial Analysis of the Government's Funds

As noted earlier, Grand Fire Protection District No.1 uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of December 31, 2015, the District's governmental funds reported a combined ending fund balance of \$3,462,420, a decrease of \$154,578 in comparison with the prior year. The general fund balance decreased \$188,364 while the debt service fund balance increased \$33,786 during 2015.

General Fund Budgetary Highlights

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The Board of Directors can only amend appropriation resolutions upon completion of notification and publication requirements.

General fund revenues were more than budgeted by \$3,211. General Fund expenditures were less than budgeted by \$1,892,072 primarily related to the amounts budgeted for capital expenditures for District projects not expended during 2015.

Capital Asset and Debt Administration

Capital Assets. The District's investment in capital assets for governmental activities as of December 31, 2015 amounts to \$7,452,462 (net of accumulated depreciation). This investment in capital assets includes land, buildings, vehicles, furniture and equipment.

Capital Assets, net of Depreciation

	December 31,	
	2015	2014
Land and improvements	\$ 1,149,262	\$ 1,149,262
Construction in process	84,248	15,303
Buildings and improvements	4,691,523	4,798,164
Vehicles	1,413,547	1,557,695
Equipment	113,882	141,361
Total	<u>\$ 7,452,462</u>	<u>\$ 7,661,785</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Additional information relating to the District's capital assets activity can be found in Note 4 of this report.

Debt Administration. As of December 31, 2015, the District had general obligation bonded debt outstanding of \$4,660,000.

Additional detail on the District's debt is in Note 5 of this report.

Economic Factors and Next Year's Budget

New growth is expected to be slow throughout the District during 2016. Conservative budgeting and spending will continue. The District continues to work on the land purchase and construction for the North Station. The 2016 budget includes capital expenditures related to the purchase of a new apparatus. General fund revenues budgeted for 2016 will not be sufficient to fund budgeted expenditures. Thus, \$687,597 is budgeted to be drawn from the general fund balance in 2016. Bond fund revenues will be sufficient to support debt service requirements in 2016.

Additional revenue sources will be sought in 2016, including, but not limited to 1) response recovery fees, 2) plan review, permit and inspection fees, and 3) state and federal grants. The District anticipates an increase in property tax revenues and impact fee reviews as the economic forecast indicates slow but steady improvement in the County.

Requests for Information

This financial report is designed to provide a general overview of Grand Fire Protection District No.1's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Grand Fire Protection District No.1
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the year ended December, 31, 2015

Net change in fund balance - total governmental funds	\$ (154,578)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital expenditures, net	73,045
Depreciation expense	(282,368)
The issuance of long-term debt provides current financial resources to governmental funds while the repayment of the principal consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	
Bond principal payments	425,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in government funds.	
Amortization of bond premium	19,187
Amortization of cost of refunding	(62,305)
Pension expense	68,988
Interest expense - change in accrued interest	<u>1,250</u>
Change in net position of governmental activities	<u>\$ 88,219</u>

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS

December 31, 2015

Note 1 – Reporting entity

The District, a quasi-municipal corporation and political subdivision of the State of Colorado, was organized in 1951, and is governed pursuant to the provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District provides fire protection and responds to various emergency situations in a 150 square mile area within the Granby, Colorado region.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

Note 2 – Summary of significant accounting policies

The more significant accounting policies of the District are described as follows:

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District except for the fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and inter-governmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, internally dedicated revenues, and other items not properly included among program revenues are reported instead as general revenues.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2015

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures, other than interest on long-term obligations, generally are recorded when a liability is incurred or the long-term obligation is paid.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest, and are being accumulated for principal and interest maturing in future years.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2015

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Pooled cash and investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Investments for the District are reported at fair value.

Property taxes

Property taxes are levied based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November and December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable. The deferred inflows are recorded as revenue in the year they are available or collected.

Capital assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities of the government-wide financial statements at cost, net of accumulated depreciation. Capital assets are defined by the District as those assets with a cost of \$3,000 or greater and an estimated life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Interest incurred during the construction phase

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

of capital assets is not included as part of the capitalized value of the assets constructed.

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Buildings	30-50 years
Vehicles	10-20 years
Furniture and fixtures	5 years
Equipment	10 years

Compensated absences

The District does not have a standard policy related to compensated absences for its employees; rather it negotiates this benefit on an individual basis. The District has not calculated the potential future liability for these individual arrangements. However, management believes that the total liability for compensated absences is immaterial to the financial statements.

Long-term debt

In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources in the current period.

Fund Balances

In the fund financial statements the following classifications describe the relative strength of the spending constraints.

Non-spendable fund balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or is legally or contractually required to be maintained intact.

Restricted fund balance – The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.

Committed fund balance – The portion of fund balance constrained for specific purposes according to limitations imposed by the District's highest level of decision making authority, the Board of Directors prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the Board of Directors.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2015

Assigned fund balance – The portion of fund balance that is constrained by the government’s intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned fund balance – The residual portion of fund balance that does not meet any of the above criteria.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District’s policy to use the most restrictive classification first.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that District management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2015

Note 3 – Cash and investments

Cash and investments are reflected on the December 31, 2015 financial statements as follows:

	Governmental
Cash and investments	\$ 3,134,535
Cash and investments - restricted	373,672
Total cash and investments	\$ 3,508,207

Cash and investments as of December 31, 2015 consisting of the following:

	Governmental
Deposits with financial institutions	\$ 2,904,134
Investments	604,073
Total cash and investments	\$ 3,508,207

Deposits with financial institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. As of December 31, 2015, the federal insurance limit was \$250,000. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of to the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2015, the District's cash deposits had bank balances of \$2,894,519 and carrying balances of \$2,904,134.

Custodial credit risk - deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has adopted a deposit policy, which follows state statutes, for custodial credit risk. As of December 31, 2015, the District's bank balances and carrying balances were insured or collateralized as follows:

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

Bank balances:	
Federally insured	\$ 2,800,723
Collateralized	<u>93,796</u>
Total bank balances	<u>\$ 2,894,519</u>

Carrying balances:	
Federally insured	\$ 2,800,723
Collateralized	<u>103,411</u>
Total carrying balances	<u>\$ 2,904,134</u>

Investments

The District's investment policy follows state statutes regarding investments. Colorado revised statutes limit investment maturities to five years or less unless formally approved by the District. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities and guaranteed investment contracts not purchased with bond proceeds are limited to maturities of three years or less.

The District primarily limits its investments to local government investment pools, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to custodial credit risk for investments that are in the possession of another party.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

As of December 31, 2015, the District had the following investments, recorded at fair value:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
Colorado Liquid Asset Trust (Colotrust)	Weighted average under 60 days	\$ 604,073

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. Colotrust is rated AAAM by Standard & Poor's.

Cash and investments - restricted

At December 31, 2015, \$99,522 of cash and investments in the Governmental Funds were restricted for fire impact expenditures (see Note 10). \$256,050 of Governmental Funds cash and investments were restricted for future payment of bond principal, interest and related costs.

Article X, Section 20 of the Constitution of the State of Colorado requires the District to establish emergency reserves (see Note 13). At December 31, 2015, \$18,100 of Governmental Funds cash and investments were restricted in compliance with this requirement.

December 31, 2015

Note 5 – Long-term obligations

The following is an analysis of the changes in the District's long-term obligations for the year ended December 31, 2015:

	Balance at December 31, 2014	Additions	Reductions	Balance at December 31, 2015	Due Within One Year
General obligation bonds payable					
Series 2012	\$ 5,085,000	\$ -	\$ 425,000	\$ 4,660,000	\$440,000
Total bonds payable	<u>5,085,000</u>	<u>-</u>	<u>425,000</u>	<u>4,660,000</u>	<u>440,000</u>
Premium	118,667	-	19,187	99,480	17,805
Cost of bond refunding	<u>(385,347)</u>	<u>-</u>	<u>(62,305)</u>	<u>(323,042)</u>	<u>(57,818)</u>
Total long-term obligations	<u>\$ 4,818,320</u>	<u>\$ -</u>	<u>\$ 381,882</u>	<u>\$ 4,436,438</u>	<u>\$399,987</u>

A description of long-term obligations outstanding as of December 31, 2015 is as follows:

\$5,260,000 of General Obligation Bonds, Series 2012 dated August 24, 2012

The bonds were issued in the amount of \$5,260,000 due through May 15, 2024, with interest rates of 2.0% to 3.0%. The bonds were issued primarily to refund the Series 2004 Bonds and to pay costs of issuance. Principal and interest are payable semi-annually on November 15 and May 15. The 2012 Series bonds are subject to redemption prior to maturity. The 2012 Series Bonds currently have a rating by Fitch of AA-.

The bonds are secured by the District's full faith and credit. All taxable property within the boundaries of the District is subject to ad valorem taxation without limitation as to rate or amount to pay the principal of and interest on the Bonds when due.

The District issued the 2012 bonds to achieve a net present value benefit of \$457,283 over the term of the bonds.

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2015

The District's long-term obligations will mature as follows:

Year Ended December 31	Principal	Interest	Total
2016	\$440,000	\$ 109,550	\$ 549,550
2017	450,000	100,750	550,750
2018	460,000	91,750	551,750
2019	475,000	77,950	552,950
2020	485,000	68,450	553,450
2021-2025	2,350,000	163,625	2,513,625
	<u>\$ 4,660,000</u>	<u>\$ 612,075</u>	<u>\$ 5,272,075</u>

Debt authorization

At December 31, 2015, the District had no authorized but unissued debt.

Note 6 – Net position

The District reports net position consisting of three components – invested in capital assets, net of related debt, restricted, and unrestricted.

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2015, the District had invested in capital assets, net of related debt calculated as follows:

Capital assets, net	\$ 7,452,462
Current portion of outstanding long-term obligations	(399,987)
Noncurrent portion of outstanding long-term obligations	<u>(4,359,493)</u>
Net investment in capital assets	<u>\$ 2,692,982</u>

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

Restricted assets include net position that is restricted for use either externally imposed by creditors, grantors, contributors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. As of December 31, 2015, the District had restricted net position as follows:

Emergencies (Note 13)	\$ 18,100
Fire impact expenditures (Note 10)	99,522
Debt service (Note 5)	<u>256,050</u>
Total restricted net position	<u>\$ 373,672</u>

The District had unrestricted net position of \$2,452,532 and total net position of \$5,519,186 as of December 31, 2015.

Note 7 – Related party transactions

During 2015, the District carried out transactions with companies owned by firefighters/board members totaling \$1,560. In addition, the board also paid vendors that have firefighters/board members as employees with transactions totaling \$38,752 during 2015. The board feels these transactions are priced competitively and are accurately characterized as “arms length” transactions.

Note 8 – Firefighters pension plan

The District contributes to the Grand Fire Protection District No. 1 Volunteer Pension Fund for the District's volunteer firefighters, which is a defined benefit pension plan. During 2001, the assets of the plan were transferred to an agent multiple-employer Public Employee Retirement System (PERS) affiliated with Colorado Fire and Police Pension Association (FPPA). The assets of the plan are pooled with other affiliated members for administration and investment purposes. The plan is not separately reported except as presented in the financial statements of the District. FPPA issues a publicly available annual financial report that includes the assets of the District's plan. The report may be obtained by calling FPPA at 303-770-3772 in the Denver Metro Area, or at 1-800-332-FPPA (3772) from outside the metro area. The report may also be accessed at www.fppa.org (employer tab).

The plan is administered by a Board of Trustees composed of the District board members and active or retired volunteer firefighters directed in accordance with Colorado Statutes.

Plan members are not required to contribute. The District's required contributions are established by the FPPA based on the retirement benefits determined by the District. The State of Colorado contributes a minimum of 90% of the District's contribution or 1/2 of one mill of the District's assessed valuation, up to a maximum of their matching

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

contribution in 2001. During 2015, the District contributed \$95,040 to the plan. The State contributed an additional \$31,557.

Retirement, disability and death benefits are paid in accordance with the plan provisions established by the Board of Trustees. Full retirement may commence when the retiree has twenty years of qualified service and is at least 50 years of age. Spouses of deceased firefighters may receive a portion of the current pension benefits.

During 2015, the District paid \$205,800 in pension payments. As of December 31, 2014 (the date of the latest valuation), there were 31 active members. In addition there were 29 retired members and beneficiaries and 2 inactive, non-retired members.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2015, the District reported a liability of \$1,077,724 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The District's proportion of the net liability was based on a projection of the District's long-term share of distributions of the pension plan relative to the projected distributions of all participating employers, actuarially determined.

At December 31, 2014, the District's proportion was 0.1688% of total employee contributions.

For the year ended December 31, 2015, the District recognized pension expense of \$26,052. At December 31, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 299,058	\$ -
Changes in assumptions	-	-
Net difference between actual and projected earnings on pension plan investments	7,874	-
Total	\$ 306,932	\$ -

December 31, 2015

Actuarial Assumptions

The total pension asset in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.50%
Projected salary increases	N/A
Cost of living adjustment	N/A
Inflation	3.00%

Mortality rates were based on the RP-2000 Combined Mortality Table with Blue Collar Adjustment projected with scale AA, 40 percent multiplier for off-duty mortality.

Sensitivity of Net Pension Liability/(Asset) to the Single Discount Rate Assumption

The following presents the District's proportionate share of the net pension asset calculated using the discount rate of 7.5%, as well as what the District's proportionate share of the net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
District's proportionate share of the net pension liability/(asset)	\$ 1,319,950	\$ 1,077,724	\$ 873,171

Pension Plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the FPPA's comprehensive annual report which can be obtained at <http://www.fppaco.org/annual-reports.html>.

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2015

Note 9 – Deferred compensation plan

The District established a deferred compensation plan pursuant to Internal Revenue Code Section 457, which is being administered by the FPPA. The District has no administration or trustee responsibilities for this plan. Neither the assets nor corresponding liabilities of this plan are reflected in these financial statements.

Note 10 – Intergovernmental agreement

In the fall of 2003, Grand Fire Protection District No. 1 entered into intergovernmental agreements with Grand County and the Town of Granby. The agreements allow the District to collect an impact fee from new developments within the Town of Granby and Grand County, which will require fire protection services from the District.

The impact fees are to be used by the District for the purpose of constructing or expanding the District's facilities and purchasing new equipment made necessary by new developments of the Town or County. The District is required to establish and maintain a separate accounting system to ensure that all funds provided by the impact fees are expended for the purpose set forth in the agreements. As of December 31, 2015, \$738,423 has been collected for fire impact fee expenditures, of which \$99,522 in investments remains restricted for such expenditures.

Note 11 – Joint construction and facility use agreement

Grand Fire Protection District No. 1 and East Grand Fire Protection District No. 4 entered into a Joint Construction and Facility Use Agreement on June 27, 2006. The Districts agreed to share equally, the construction costs and future operating and maintenance costs of a regional response facility (known as the "South Station" or "Red Dirt Station") in Grand County. The Districts have been utilizing this facility since then, providing living quarter to active firefighters and responding to emergencies in both Districts, improving response times and increasing manpower on scene.

Land valued at \$150,000 was donated by the YMCA of the Rockies for the South Station site. The Districts contributed \$270,000 each toward construction. The facility is being operated now by a joint management committee made up of two members from each District's board. The Districts will rotate responsibility for management of the facility. The completed construction cost of \$1,075,603 is divided equally between the assets of both districts.

Note 12 – Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees or volunteers; and natural disasters. The District carries commercial coverage of these risks of loss. Claims have not exceeded coverage in any of the last three fiscal years.

December 31, 2015

Note 13 – Tax, spending and debt limitation

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 6, 2001, registered electors of the District passed an issue allowing the District, in the year 2002 and each subsequent year thereafter, to collect, retain, and expend the full proceeds of the District's fees, taxes, non-federal grants, and other revenues and to spend such revenue for debt service, District operations, capital projects, and any other lawful District purpose, notwithstanding any State of Colorado restrictions on revenues or spending including the restrictions of Article X, Section 20, of the Colorado Constitution, the revenue limitations in Section 29-1-301 of the Colorado Revised Statutes or any other law.

On May 4, 2004 the District voters approved a mill levy override to provide funds for District operations, allowing the District to levy up to 0.850 mills for such purposes.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

Note 14 – Restatement to financial statement

In 2015 the District adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The statement is intended to provide decision-useful information, support assessments of accountability and interperiod equity, and create additional transparency for pension reporting. The District restated beginning net position as follows, as a result of the implementation of the standard:

Net position – December 31, 2014 (as previously stated)	\$ 6,445,707
Adjustment related to pension liability	<u>(1,014,740)</u>
Net position – restated December 31, 2014	<u>\$ 5,430,967</u>
